BUILDING RELATIONSHIPS SINCE 1906. CABINETS, TOO.

At Marsh Furniture Company, we've continued to define the modern kitchen cabinet for more than 110 years. While our business has evolved and grown, we still have the same commitment to providing Marsh dealers— and the families they serve— with beautiful handcrafted cabinetry that will last a lifetime.

We believe our heritage as a family enterprise can't help but find its way into our products, because we never forget that our cabinets live in the place where families gather— in the heart of the home.

Photographs throughout this brochure are often submitted by our dealer partners. Many dealers use custom woodworking services, not affiliated with Marsh Furniture Company, to design and build products to supplement Marsh Cabinets.

Front Cover: Apex Graphite

Summerfield 1 Alpine

With their clean, simple profiles, Savannah 1 & Savannah 2 represent a typically transitional element. Adding a touch of contemporary is the Graphite stain.

Savannah 1 & Savannah 2 Graphite

Apex Alpine

The built-in features of these Marsh Cabinets include a microwave base, spice pullouts, lazy Susans and more, while the fresh Alpine finish leaves this kitchen looking open and spacious.

Doors shown in Cherry Tuscan. For color accuracy, please order sample.

Summerfield cabinets take this soothing sanctuary's contemporary style to the next level by rethinking warm, wood tones and combining them with strong horizontal lines.

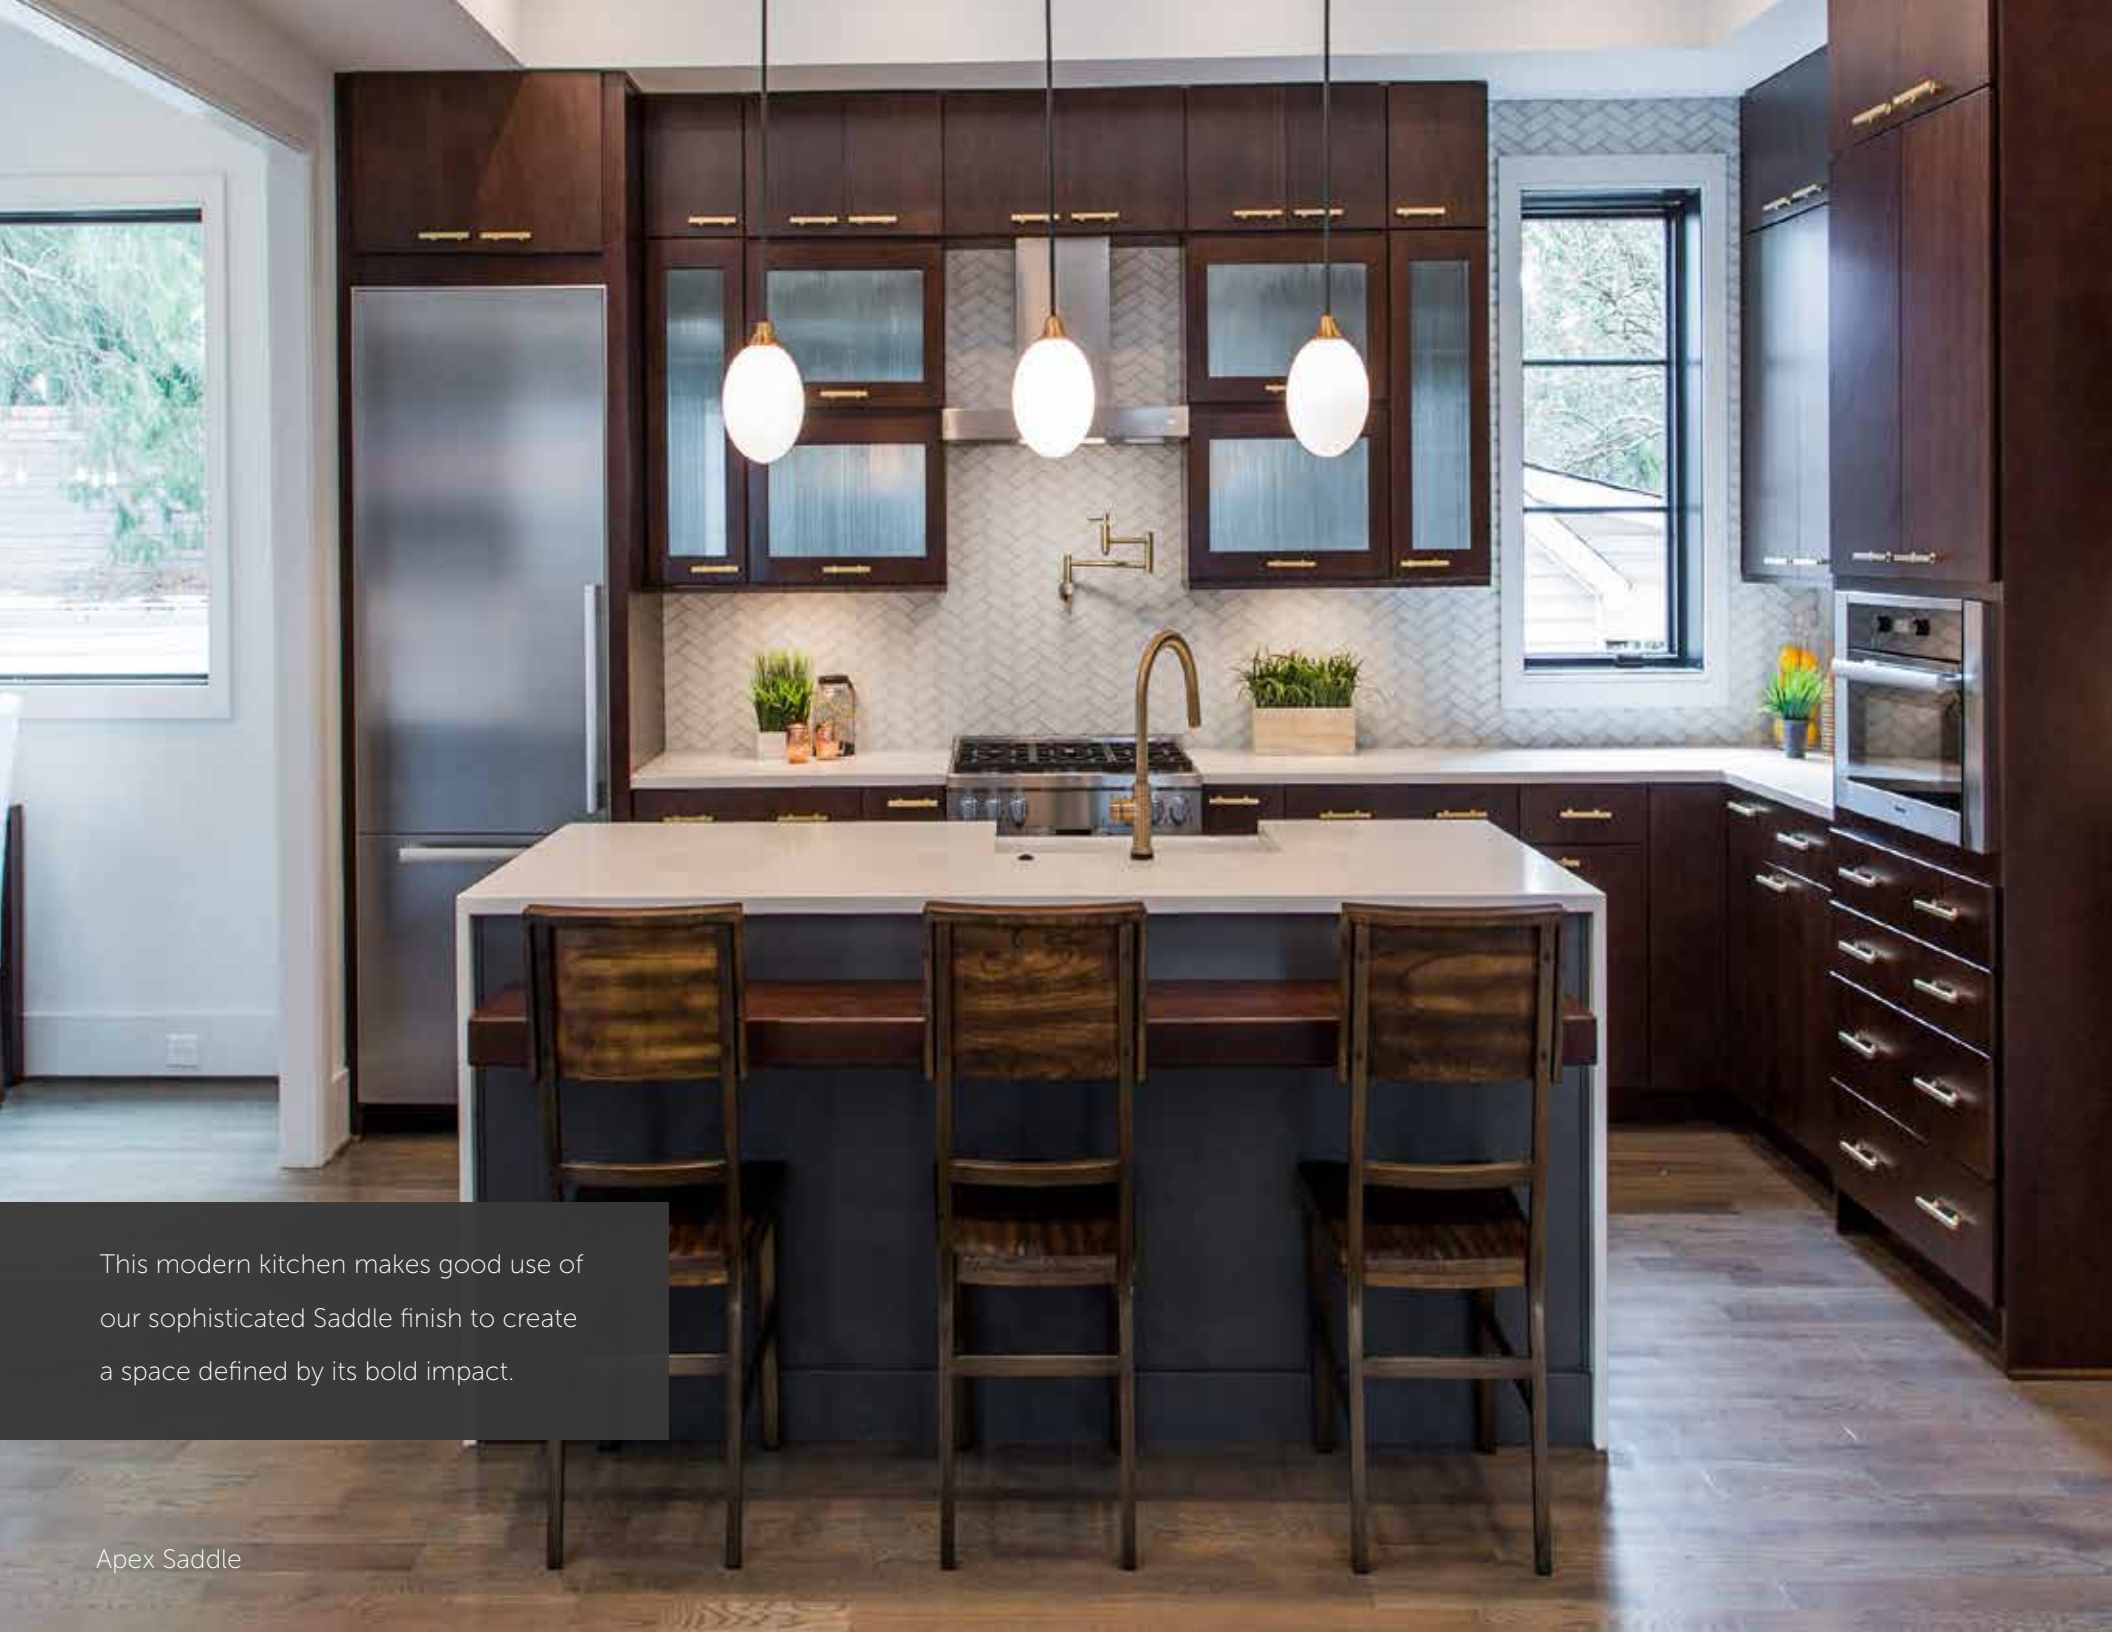

Summerfield 1 Linen with Cafe island.

This kitchen is rooted in tradition, but the straightforward cabinetry and hardware pull it into a comfortable, transitional style. The space keeps the regal aspect of traditional kitchens without overstating its elegance.

Savannah 1 Alpine & Espresso

This modern kitchen makes good use of our sophisticated Saddle finish to create a space defined by its bold impact.

Hampton Linen

Hampton Graphite with Alabaster Glaze

WOOD SPECIES

MAPLE

Maple is a hard, dense wood with a closed grain that gives its texture uniformity. It's perfect for painting or staining.

DENSITY / HARDNESS

GRAIN / CHARACTER

CHERRY

Cherry is a moderately hard, strong wood. The natural beauty of its red undertones makes it a highly desirable wood.

DENSITY / HARDNESS

GRAIN / CHARACTER

OAK

Oak is an extremely hard wood with an open grain. Its coarsely textured grain patterns often vary from tight to wide.

DENSITY / HARDNESS

GRAIN / CHARACTER

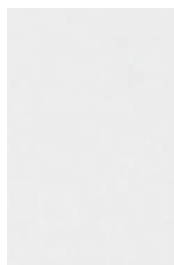

BIRCH

Birch is a medium-hard wood with plain and closed grain and a curly or wavy pattern. Its light wood takes stain well.

DENSITY / HARDNESS

GRAIN / CHARACTER

THERMOFOIL

Thermofoil is a Medium Density Fiberboard (MDF) covered with durable thermofoil laminate. The maple wood frame is painted with a white paint to closely match the laminate. You may notice some small seams in the paint at the joints of the cabinetry face frame due to expansion and contraction of the wood. This will not affect the integrity of the cabinet or the finish and should not be considered a defect.
